

## **Repo Remarketing – A full service Provider ranked in the top 3 with a leading LPR provider**

*Increasing value to all partners – Repo Remarketing makes aggressive jump to a top strategic partner*

**Tuesday, May 7, 2013 (Citrus Heights, CA)** – Repo Remarketing accelerates into the Top 3 as a leading LPR provider affiliate provider. Their clients will now benefit from the largest number of daily digital license plate scans and they will return more assets more efficiently and cost effectively. This focus has kept Repo Remarketing as a top service provider of Recovery and Remarketing services.

Over the course of the first quarter of 2013, a leading LPR provider and Repo Remarketing have aligned strategically and in turn increased Repo Remarketing's standing to 97%. Repo Remarketing has been a strategic affiliate, and continued the commitment to provide optimum success to their partners. They have aggressively pursued all agents who currently have LPR 2.0 (License Plate Recognition) technology, and successfully increased their active percentage of agents. This movement shows the commitment to continually improve and strive to increase the value they bring to their partners - the value of being in the best position for a greater percentage of recoveries.

They have identified this area of improvement with regard to services and with a continued attitude of being the best in the industry. As in 2012 when Repo Remarketing launched their sister company, **Find Track Locate**; which has been a hugely successful enhancement to their services, they are committed to being a top and respected end to end provider to their partners. Throughout this impressive feat, they have continued their efforts in reaching out to more agents who are affiliates with LPR 2.0 technology, creating the best opportunity for a successful recovery.

For more information about Repo Remarketing, Find Track Locate and its services, please contact Jodie Dawson, VP of Recovery Services at (916) 725-2708x110
